ISE Staff Recruitment Policy

Safer Recruitment Overview

At ISE we firmly believe that the best results are achieved when the students are cared for by "...well-trained, compassionate and enthusiastic adults, with whom they can develop appropriate attachment and build positive relationships." (Children Act, 1989; Section 22).

As a result we have certain Recruitment Policy and procedures that investigate appropriate attitudes to relationships with students as well as to deter, reject or identify people who might abuse children or are unsuited to work with them.

Recruitment

A vital part of child safety is prevention; therefore, the following measures are taken to ensure that only those who do not pose a risk to children are employed.

1. Job contracts and advertisements

States that ISE works to protect children or young adults and that those seeking work will be assessed regarding their suitability to work with children. Also states that ISE reserves the right not to offer employment, or to terminate employment with immediate effect, any individual that the school deems unsuitable to work in an environment with people under 18 or vulnerable adults.

2. An application form or CV

Elicits information regarding applicant's past experience and contact with children.

3. Face-to-face interview

Is used to explore all candidates suitability to work with children, enquire about previous experience and use vignettes and scenarios to elicit responses about interactions with children.

3. Declaration of Suitability to Work with Young People or Vulnerable Adults

Requires any applicant to declare past offences, self-declare suitability and allow the school to conduct all necessary checks.

Definitions

In child protection guidance 'child' is a person not yet 18 years of age, i.e. who has not yet reached his/her 18th birthday. We refer to 7-17 year olds as 'under 18's'.

Vulnerable adults, or adults at risk, are defined as an adult (18+ years) who needs special or additional care because of mental or other disability, illness, infirmity or age. However we subscribe to the point of view that adults with very limited English are also at risk or vulnerable in any English city, being disempowered by their inability to communicate effectively in English.
